They will address transport means and infrastructure and integrate them into a user friendly European transport system of smart connected mobility and logistics. Research and innovation on equipment and systems for vehicles, aircraft and vessels will make them smarter, more automated, cleaner and quieter, while reducing the use of fossil fuels. Research and innovation on smart infrastructure solutions is necessary to deploy innovative traffic management and information systems, advanced traveller services, efficient logistics, construction and maintenance technologies.</p> <p>As indicated in the Specific Programme, the “activities will be organised in such a way as to allow for an integrated and mode-specific approach as appropriate”. ## 1.7 Horizon 2020, Societal Challenges, Call: Understanding Europe - promoting the european public and cultural space

Kratek opis predmeta razpisa:	<p>The resilience and cohesion of European societies are strongly conditioned by beliefs and identities, as well as by collective representations and constructions of past and present realities and expectations about the future. Research in the humanities and social sciences is well-placed for making important contributions to creating a new narrative for Europe by studying the drivers of and obstacles to the emergence of a European public sphere and a European cultural space. The role that technology can play in promoting a better understanding of the richness of Europe's heritage and diversity equally deserves further exploration as well as solutions-driven options.</p> <p>A thorough and continuous reflection of Europe's cultural and social diversity and its past facilitates tackling societal challenges that European societies face today and will face tomorrow due to endogenous as well as external factors.</p> <p>Understanding Europe is therefore a sine qua non condition for preparing and shaping the future, thus fostering truly reflective societies in Europe. A better understanding of Europe's cultural, social unity and diversity of its past will inform the reflection about present challenges/opportunities and help to find solutions for shaping Europe's future. Special attention should be dedicated to the accessibility for all and universal design in relation to the role that technology can play in promoting this better understanding.</p> <p>This call has a link with the CO-CREATION call and with the cultural heritage related Topics of Societal Challenge 5 and other relevant parts of H2020.</p> <p>Topics:</p> <p><a href="#">CULT-COOP-08-2016:Virtual museums and social platform on European digital heritage, memory, identity and cultural interaction.</a></p> <p><a href="#">CULT-COOP-11-2016/2017:Understanding the transformation of European public administrations.</a></p>

Kratek opis predmeta razpisa:	<p>Europe has many competitive strengths: the talent and creativity of its people, a strong industrial base, a vibrant services sector, a performing education system, its position as the world's biggest trading bloc and leading destination for foreign direct investment. Likewise, Europe can also count on its strong values, democratic institutions, its consideration for economic, social and territorial cohesion and solidarity, and its respect for the environment and cultural diversity.</p> <p>Europe is facing the need to identify the obstacles to and to find untapped sources of growth and employment, renewing the legitimacy of public policy-making, especially through greater citizens' involvement, and of delivering better public services for all.</p> <p>These issues need to be understood and addressed (cf. stronger evidence-base) in order for Europe to progress at socio-economic, political, educational and cultural levels, taking into account an increasingly interconnected and interdependent world. An emerging approach for tackling many of these issues is to encourage creativity and collaboration between various societal actors through co-creation. It is therefore proposed to focus on co-creation for growth and inclusion: engaging citizens, users, academia, social partners, public authorities, businesses including SMEs, creative sectors and social entrepreneurs in processes that span from identifying problems to delivering solutions.</p> <p>The potential for societal and innovative development through co-creation in all sectors of society is widely recognised and the current socio-economic context, despite many difficulties, provides for manifold opportunities to fully exploit it.</p> <p>A clear link with co-creation and social innovation in culture may also be found in CULT-COOP call.</p> <p>Topics:</p> <p><a href="#">CO-CREATION-03-2016: Piloting demand-driven collaborative innovation models in Europe</a></p> <p><a href="#">CO-CREATION-02-2016: User-driven innovation: value creation through design-enabled innovation</a></p> <p><a href="#">CO-CREATION-08-2016/2017: Better integration of evidence on the impact of research and innovation in policy making</a></p> <p><a href="#">CO-CREATION-09-2016: A European map of knowledge production and co-creation in support of research and innovation for societal challenges</a></p>

Kratek opis predmeta razpisa:	<p>Current trends in European societies bring with them opportunities for a more inclusive and united Europe on the one hand and risks and challenges on the other. Large disparities in human and social capacities are counterproductive to a sustainable and creative economy and participatory governance and inclusion. They jeopardise economic growth while threatening the very foundations of democracy, the rule of law and respect of human rights in Europe. These questions have to be analysed from a theoretical perspective and practical solutions to overcome inequalities have to be recommended.</p> <p>For more inclusive societies to take shape in the medium term, coherent visions will need to be devised on how to foster a social and economic framework that promotes fairness and sustainability in Europe as key policy objectives, while enhancing social dialogue, respecting the continent's diversity and considering the global context.</p> <p>The rise in inequalities in Europe and other parts of the world comprises hitherto unknown quantitative and qualitative dimensions: in the wake of the financial and economic crisis, highly increased levels of inequality (e.g. income and wealth concentration, gender inequality) can be detected alongside novel types of inequalities (e.g. debt inequality, inequality in access to justice or political life, spatial inequality). Options to reverse inequalities should be evidence-based and suggested at EU level.</p> <p>These recent trends will need to be fully understood and effectively tackled through comprehensive research and innovation activities. Based on a sound understanding of inequality trends, policies and measures aimed at reversing various kinds of inequalities need to be examined. Different options for policies and measures (e.g. social dialogue, tax policy, new forms of evidence-based education, public service innovation, welfare state reforms, labour market, employment and consumer policies and practices) should be identified and their usefulness be compared. Specific emphasis should be given to the objective of reversing territorial inequalities, equal enjoyment of human rights and the conditions enabling comprehensive urban policies, the mobile provision of social services and an equal access to ICT use.</p> <p>Most of the Topics of REV-INEQUAL concern primarily the EU, although a certain number of issues clearly have an international dimension. This is particularly the case for Topic 2 on radicalisation and Topic 4 on mobility and migration. The content of these Topics is linked with the ENG-GLOBALLY call (Topics 1 and 3) and with the Societal Challenge 7 Topic SEC-06-FCT-2016: "Developing a comprehensive approach to violent radicalization in the EU from early understanding to improving protection". In these Topics the participation of entities from the international partner countries and regions concerned is strongly encouraged.</p> <p>See the details of the call under each topic.</p> <p><a href="#">REV-INEQUAL-01-2016:An empirically informed European theory of justice and fairness</a></p> <p><a href="#">REV-INEQUAL-02-2016:Contemporary radicalisation trends and their implications for Europe</a></p> <p><a href="#">REV-INEQUAL-03-2016:Dynamics of inequalities across the life-course</a></p>

## 1.11 RAZPIS ZA ZBIRANJE PREDLOGOV – EACEA/41/2015 v okviru programa Erasmus+, „Ključni ukrep št. 3 – Podpora za mala in srednja podjetja, ki sodelujejo v programih vajeništva“

Izdajatelj:	European Commission	
Status: aktiven	Datum objave: 15.10.2015	<b>Deadline date:</b> <b>- 15.1.2016 do 12.00 ure (po bruseljskem času).</b>
	<a href="http://eur-lex.europa.eu/legal-content/SL/TXT/PDF/?uri=OJ:JOC_2015_340_R_0005&amp;from=EN">http://eur-lex.europa.eu/legal-content/SL/TXT/PDF/?uri=OJ:JOC_2015_340_R_0005&amp;from=EN</a>	
Kratek opis predmeta razpisa:	<p>Glede na visoko stopnjo brezposelnosti med mladimi ter neskladje med ponudbo znanj in spretnosti ter povpraševanjem po njih so potrebna kakovostna vajeništva za zagotovitev, da znanje, spretnosti in veščine, pridobljeni med usposabljanjem, ustrezajo potrebam trga dela. Uspeh političnih pobud za vajeništva je precej odvisen tudi od večjega števila malih in srednjih podjetij (MSP), vključno z mikropodjetji, ki bodo sodelovala pri zagotavljanju delovne prakse. Iz dokazov je razvidno, da velika podjetja ponujajo vajeništva pogosteje kot manjša. Mala in srednja podjetja imajo ključno vlogo pri ustvarjanju delovnih mest, zato bi lahko imela tudi večjo vlogo pri zagotavljanju vajeništev in s tem pri izboljšanju zaposljivosti mladih.</p> <p>Cilj razpisa je pozvati k oddaji <b>predlogov za zagotovitev podpore malim in srednjim podjetjem, ki se želijo vključiti v programe vajeništva ali znatno povečati svojo sedanjo ponudbo vajeništev, pri zagotavljanju števila mest vajeništev.</b> Opozoriti je treba, da ta razpis ne zagotavlja neposredne finančne podpore malim in srednjim podjetjem.</p> <p>Namenjen je povečanju ponudbe vajeništev, kar je ena od petih evropskih prednostnih nalog na področju poklicnega izobraževanja in usposabljanja za obdobje 2015–2020 in eden od glavnih ciljev v okviru evropske koalicije za vajeništva.</p> <p>Cilj tega razpisa je podpreti projekte na evropski ravni za pomoč malim in srednjim podjetjem pri vključevanju v programe vajeništev.</p> <p>Predloge je treba predložiti v okviru enega od naslednjih dveh sklopov:</p> <p><u>(a) partnerstva za krepitev zmogljivosti posredniških organov ali partnerstva, ki jih vzpostavijo velika podjetja za podporo malim in srednjim podjetjem (sklop 1)</u></p> <p>Pri projektih, ki se podprejo v okviru tega sklopa, bi bilo treba vzpostaviti partnerstva med podjetji, ponudniki poklicnega izobraževanja in usposabljanja ter posredniškimi organizacijami, kot je ustrezno, ter javnimi organi in socialnimi partnerji s ciljem vključiti več malih in srednjih podjetij v programe vajeništva. Zato bi morali biti ti namenjeni:</p> <ul style="list-style-type: none"> <li>• krepitvi zmogljivosti posredniških organov (kot so trgovinske, industrijske in obrtne zbornice, druge strokovne organizacije), ki podpirajo vajeništva v malih in srednjih podjetjih, ali</li> <li>• partnerstvom, ki jih vzpostavijo večja podjetja s svojo dobavno verigo za pomoč malim in srednjim podjetjem pri povečanju ponudbe vajeništev.</li> </ul> <p><u>(b) Mreže in organizacije na evropski ravni, ki podpirajo mala in srednja podjetja prek svojih nacionalnih članov ali podružnic (sklop 2).</u></p> <p>Z razpisom se podpira tudi omejeno število projektov, ki jih obstoječe evropske mreže in organizacije predložijo v podporo strateškim dejavnostim, ki potekajo med njihovo krovno organizacijo na evropski ravni in njihovimi nacionalnimi člani ali podružnicami na področju krepitve ponudbe vajeništev v malih in srednjih podjetjih.</p>
